## BIOSPERSE 4012

### COOLING WATER BIO-DISPERSANT

#### APPLICATION:

PMC's Biosperse 4012 is a cooling water dispersant used for oil and microbiological growths. It has been specially formulated to meet today's tough environmental concerns. Biosperse 4012 utilizes new technology which will improve the corrosion protection in a system. Biosperse 4012 utilizes proven deposit control agents which ensure optimum heat transfer performance.

#### BENEFITS:

- \* No worries about accidental leaks or spills.
- \* Improves systems corrosion protection.
- \* Gives superior deposit control.
- \* Removes Bio-films and softens system deposits.

#### FEEDING AND CONTROL:

PMC Biosperse 4012 should be slug fed to the cooling tower sump or through a by-pass feeder.

For specific recommendations contact your PMC Water Systems consultant.

#### PRECAUTIONS:

Study Material Safety Data Sheet.

#### PACKAGING:

Plastic pails                      25 KG

Poly drums                        230 KG
